The TOPAZ Sailing System can be set up to satisfy the requirements of the sailor or sailors on any given day.

The System offers a variety of sailing options, ranging from a simple yet thoroughbred single hander to a performance gennaker racing sailboat. With graduated steps in between, the choice is yours.

The rig options, cockpit capacity, and hull buoyancy have been thought through intelligently so that the boat can be sailed by a child, an adult, two children, two adults or an adult and child.

The Topaz TRILAM hull construction gives unrivalled strength to weight ratio and great uniformity, buoyancy, stiffness and durability. And comes with a 3-year hull warranty.

Topaz UNO Plus

The TOPAZ UNO PLUS is the simplest and most popular TOPAZ Sailing System rig option. This is probably because of the great value it offers as a one or two person boat. It is easy to handle and very robust.

The TOPAZ UNO PLUS is an ideal choice for novice sailors. It has an unbattened mainsail which can be reefed depending on conditions and user ability. It also has an inverted leech making it easier to handle.

The 2-piece mast is very easy to assemble and the 1.75m jib is a good size offering fun sailing for children and adults alike.

The self-draining cockpit is particularly roomy for the size of the boat. Toe straps for crew and helm also come as standard. And righting lines and grab-rails are safety features that are fitted as standard on all of the Topaz Sailing System options.

The UNO PLUS uses the resilient and tried and tested Topper daggerboard and rudder blade which are ideally suited to the knocks and bumps of beginner sailing and the heavy use that families, sailing schools and clubs demand.

The boat comes fitted with the highest specification equipment as standard making the boat a pleasure to sail and keeping gear failure to an absolute minimum.

Topaz UNO RACE Plus

The TOPAZ UNO RACE Plus features a larger 6.9m² fully battened Mylar mainsail designed for the more adventurous sailor who demands that extra bit of performance and excitement.

An R2 tracked mast option is also available which enables the boat to be left rigged in the dinghy park. Simply hoist the sails up when you want to go sailing.

Topaz UNO RACE X

The TOPAZ UNO RACE X rig offers an exciting option for singlehanded or two crew sailing. The RACE X features the same mast, main and jib as the RACE Plus, but the addition of a full on 8.41m² asymmetric gennaker is the icing on the cake for this racy little pocket rocket.

The gennaker system is supremely efficient and even smaller sailors can smoothly raise or lower the gennaker on a single line launch.

Topaz TRES X

The TRES X utilises a second mast position to provide the perfect rig balance. The single spreader mast is supported by an aluminium beam that slots into specially moulded recesses. The beam also provides a neat platform for the control lines and halyard cleats for the sophisticated rig.

A trapeze, powerful fully battened main, high aspect ratio jib and ample gennaker complete the set-up. The TOPAZ is transformed into a two-person, three-sail flye with a pedigree performance feel - yet no loss of the outstanding stability and vice-free temperament of the TOPAZ UNO options.
